

*Bridging gaps in our communities to
help foster a stronger, healthier,
and happier society!*

About Us

Mercey Springs Foundation was founded in 2004 by a diverse group of women that believed there were already so many great organizations doing good work in our communities that if a new charity was formed, it should be to partner with other groups and not compete for resources.

Mercey Springs Foundation is all about creating bridges between organizations and people. Part of our mission is to support other charities through financial contributions, volunteerism and raising awareness of the work they do in our communities

Some of the ways we achieve this:

General Meetings/Gatherings: At a minimum, Mercey Springs' members meet four times each year – twice for socially networking and staying connected to organizations they support; and twice to select and award grant monies.

Grant Awards: Beginning in 2016, MSF will be awarding approximately \$10,000 annually in grant funding to community organizations that apply.

Volunteerism: We continually recruit volunteers for other organizations – either on an ongoing basis or for events where extra hands are needed.

Outreach: MSF members attend various outreach events to promote Mercey Springs and spend time connecting in the community.

Program Partners: Mercey Springs Foundation provides new and smaller organizations an umbrella to operate under when their resources are just not enough to start their own charity. It is their vision – their program – we just support in whatever way we can.

Organizations

**Mercey Springs Foundation
has supported in the
Sacramento community**
